ABCs Of Student Success

is for ZOOMED.

The school year has *zoomed* by! It has been a great year full of learning and fun. Thank you, parents, for supporting our school and encouraging your child all year long. Thank you, teachers and assistants, for coming up with interesting ways to learn. And thanks to our custodians, secretaries, bus drivers, and cooks, who keep us all safe, informed, on time, and well fed. Finally, thank you students! You gave your best efforts. You grew in so many ways. Have a great summer, and we look forward to seeing you next school year.

# ***Health Office Notes:***

**Attention 4th grade Parents!**

**Dr. Seth Ernstberger will be coming to Mount Tabor on Thursday, May 16th to discuss dental hygiene with our fourth graders at 1pm! We are very excited to welcome him and his staff! He will go over how oral health relates to overall health, what happens when we neglect our teeth and gums, how to prevent cavities and gum disease, and proper brushing and flossing techniques.**

## **The Health Office Needs Your HELP!**

**The health office desperately needs pants, sizes 5T-10  
(large)!**

**All donations are greatly appreciated and can be dropped  
off at the welcome center or sent to school with your  
student.**

The end of the school year is approaching fast. If your student has medication in the health office, please email or call us to let us know how you would like the medication to go home. If the student has a controlled medication, such as certain ADHD medications remaining (more than one pill), it will need to be picked up by an approved adult by 3pm on the last day of school.

If your student has a chronic medical condition that requires a Healthcare Action Plan, you will be receiving a Summer Letter with the new orders for next year. Please reach out to your child's doctor and have the necessary forms completed by the first day of school. All forms can be found on the district website, should you misplace your copy over the summer. Please remember to keep any students with fevers  $>100.4$  home. They can return when they are 24 hours fever free without the use of medication like Tylenol or Ibuprofen.

This is also a common time of year for Head Lice. This time of year in late Winter our kids are bringing in their coats and hats to help with the cold chill outside. A lot of times students will share their hats with friends or leave their coats in a pile on the classroom floor. Encourage your student not to share hats, brushes, or coats in the school setting, along with sitting with their heads together. Remind your child to store their hats and coats in their backpack when they are not in use. Remember: Head lice don't jump, they don't live on pets and they have nothing to do with personal hygiene. No one is exempt from getting head lice. The most common way head lice is spread is by head-to-head contact. If you notice your child is scratching their scalp, you can check their scalp in a well lit area of the home or you can call and ask the school nurse or health aide to check your student at school. If you find that your student has lice, please contact the school and let them know. We have a supply of lice treatment from our health department that we can provide if assistance is needed. We can also guide you in how best to treat the home as well. Once they have been treated, an adult from the home will need to bring them into the health office for a head check. If no live lice are found, the student may return to school.

Please call or email Allison Nestor, RN at 812-981-7653, [anestor@nafcs.org](mailto:anestor@nafcs.org). Thank you for all you do to keep our kids safe and healthy in school!
